LUCAS AGUIRRE

DEVOPS & CLOUD INFRASTRUCTURE ENGINEER (AWS | KUBERNETES | JENKINS | TERRAFORM)

PERSONAL PROFILE

Telecommunications engineer specializing in DevOps with experience in infrastructure automation and continuous deployment. Passionate about optimizing processes using Kubernetes, Jenkins, and CI/CD tools to improve operational efficiency.

ACADEMIC EDUCATION

TELECOMMUNICATIONS ENGINEERING

- Universidad Nacional De Río Cuarto (2018-2024).
- Institut national des sciences appliquées de Lyon (2023-2024)

WORK EXPERIENCE

LABORATORY ASSISTANT (2021-2023)

At the UNRC Radio Communications Laboratory, I participated in a project to virtualize the laboratory and in various projects focused on radio communications.

EMPRINET 4.0 (FEBRUARY 2024–JUNE 2024

During my internship, I worked on deploying microservices using DevOps strategies and clustering with Kubernetes, gaining experience with Jenkins, Kubernetes, and other key technologies in the DevOps ecosystem.

FUTIT SERVICES(MARCH 2024–PRESENT)

I currently work as a DevOps engineer, focusing on infrastructure management. I work with tools such as Jenkins, Docker, Argo CD, Argo Workflow, and Kubernetes, as well as writing Python code to automate and optimize processes.

FORMATIONS

- Algorithms, Development of Programming Logic
- DevOps with Docker, Jenkins, Kubernetes, git, GitFlow CI y CD
- SO Linux for advancers
- AWS Certified Developer Associate DVA-C02 (In-progress)
